PROJECTS

SwitchAR: AR Virtual Switch Control For IoT-based Smart Home Automation 2023

- A partnered Final Year Project that aims to help the elderly to become more independent when interacting with home appliances.
- Proposed solution by developing a mobile application using Flutter and Unity application that implements the concepts of Internet of Things (IoT) and Augmented Reality (AR).

Tools used:

Blynk Arduino IDE Vuforia Unity

Crime Dataset Analysis 2023

- Coordinated a group of four people to investigate the crime rate in Malaysia from the year 2015 until 2020.
- Provided insights on the trends of crime rate through visualizations and interactive dashboards.
- Datasets analyzed were obtained from Malaysian Open Data Portal at https://data.gov.my.

Tools used:

Tableau Microsoft Excel

Covid-19 Data Cleaning 2023

- Self-learned project data cleaning basics using SQL Server through a YouTube course.
- Utilized data sourced from https://ourworldindata.org/covid-deaths to clean and transform raw data into a structured format suitable for visualization purposes.

Tools used:

Standard Query Language SQL Server Management Studio

WORKING EXPERIENCE

Housekeeping Department - Part Time   **August 2022 - October 2022**

Bayou Lagoon Park Resort

- Managed inventory and calculated essential supplies, such as linens and bedsheet to ensure operational efficiency.
- Provided engaging guest entertainment for a two month period, enhancing visitors experiences through personalized and lively interactions.

LEADERSHIP

KPMG Student Ambassadors 2023   **January 2023 - December 2023**

- Strategized engaging physical and virtual events to facilitate connections between IIUM students and KPMG mentors.
- Executed workshops aimed at enhancing students' job market competitiveness.
- Achievement: managed to gather 30 to 40 students to a physical event in IIUM.

ICT Student Society Committee 2022   **September 2022 - January 2023**

- Volunteered to be part of committee member of ICT Student Society 2022/2023, contributing to various student activities.
- Managed the arrangement of the venue and equipment for upcoming events, ensuring a seamless and successful execution.

AWARDS AND ACHIEVEMENT

Malaysia Data Innovation Talent 2023

- Participant - won top 50 among 120 groups in national level.
- Analyzed datasets from openDOSM related to housing affordability across income groups and provide solutions through dashboards and analytics.

Final Year Project - 1st Place in System Development Category

- Awarded 1st place in the System Development category for the Final Year Project from department of KICT.

Dean's List Award

- Semester 1 and 2, 2020/2021
- Semester 1 and 2, 2022/2023
