OBJECTIVE

A data-driven IT professional and AI Apprentice with a **First-Class Honours** degree and recipient of **Dean's List Award** for four consecutive years. Recently completed the **Gamuda AI Academy Full Stack AI Development** programme, gaining **2nd runner up** award and deep technical fluency in the **Google Cloud ecosystem** as well as **Generative AI** implementation. Seeking for entry-level **Software Development Engineer** or **Data Engineering** role. **Available to start immediately.**

WORK EXPERIENCE

Perodua Sdn. Bhd., Selangor

(April 2025 – October 2025)

System Engineer (Big Data & Digitalization)

- Ownership and maintained SSIS pipelines to automate Oracle-to-SQL Server ETL processes, ensuring accurate and reliable data integration across systems.
- Achieved transfer of 1.9M rows within 3 days, demonstrating ability to optimize ETL workflows for timely data delivery.
- Designed and implemented Master Data Services (MDS) to centralize enterprise data across multiple Perodua group companies, establishing a single source of truth across the Perodua environment.
- Enhanced data quality and integrity by configuring domain rules, business rules, and using Data Quality Services (DQS) for cleansing, matching, and enrichment processes in preparation for analytics initiatives.
- Optimized ETL by configuring SQL Server Agent to schedule SSIS packages, automating daily Oracle-to-SQL Server data loads and eliminating manual intervention.
- Participated with UAT meetings and handled bug-fixing to ensure clean and optimized pipeline being deployed to production environment.

WAHDAH Technologies, Melaka

(March 2024 – August 2024)

Android Programmer (Internship)

- Developed key Android app features using Kotlin, MVVM architecture, and Android SDK components to enhance user experience and improve app functionality.
- Integrated REST APIs and Google Maps API to enable seamless transactions and location-based services, leveraging data-driven insights for better decision-making.
- Collaborated in an agile environment to troubleshoot issues, conduct API testing using Postman, and support app deployment, demonstrating adaptability, teamwork, and a commitment to continuous improvement.

EDUCATIONAL BACKGROUND

International Islamic University Malaysia, Kuala Lumpur

(November 2020 – November 2024)

Bachelors in Information Technology specialized in Business Intelligence and Analytics (Honours)

CGPA:3.75/4.00

ACHIEVEMENTS

- 2nd Runner up, Gamuda AI Academy. (2026)
- Dean’s List recipient (8 out of 8 semester), University level. (2024)
- Malaysia Data Innovation Talent 2023, National Level, Top 50 among 120 groups. (2023)

RESEARCH PROJECT

Airis: Camera First Language Learning Application

(2026)

- Secured Top 3 Best Project among 8 groups, with recognition for excellence in image processing as the application's core feature.
- Provided strategic guidance to non-technical stakeholders while managing the end-to-end development of the mobile platform.
- Applied Retrieval-Augmented Generation (RAG) concepts to the chatbot functionality to significantly improve LLM accuracy and response relevancy.
- Mentored team members through rigorous code reviews, ensuring clean code and DRY principles to ensure enterprise-grade scalability and maintainability.

Final Year Project, SwitchAR, AR Virtual Switch Control for IoT-Based Smart Home Automation.

(2024)

- A partnered Final Year Project aimed at helping the elderly become more independent with home appliances.
- Proposed and developed a mobile application using Flutter and Unity application that incorporates IoT and AR concepts, providing a modern solution that helps elderly interact with home appliances with ease.

SKILLS

- AI & Data Engineering:** Generative AI, Large Language Models (LLMs), Agentic AI, RAG, Prompt Engineering, ETL Processes, Alteryx, Data Modeling & Cleaning
- Programming Languages:** Python, SQL, Kotlin, Dart, JavaScript, Java, C++, PHP
- Frameworks & Web Development:** React Native, React.js, FastAPI, Axios, REST APIs, HTML/CSS
- Databases & Cloud Platforms:** PostgreSQL, MySQL, Microsoft SQL Server, Firestore, MongoDB, Firebase
- Tools & Analytics:** Power BI, Tableau, Advanced Excel (Pivot Tables, Dashboards), Postman, Git, GitHub, GitLab
- Languages:** Bahasa Malaysia (Native), English (Intermediate), Arabic (Beginner)
